

THE DESIGN COLLECTION

Overview

Digimura: The Design Collection, a range of 26 new digitally printable wallcoverings

Products

A new collection of unique wallcovering finishes incorporating colour, iridescent pearls, brushed metals, exquisite textures and luxurious textiles; it's all there to inspire designers and end-clients when they are looking to create bespoke interiors.

The Design Collection is all about the 'look and feel' of different base finishes and the part they can play in the creation of a printed wallcovering design. These wallcoverings are not just a media to be printed on but can form an integral part of the overall design; elevating the look and feel of both the finished wallcovering and the interior space itself.

Whilst the collection includes varying specifications, they all meet the stringent requirements of commercial environments and are fully compliant to the EN 15102 Construction Products Regulations for wallcoverings and as such, are fire rated to EN 13501.

They are also certified to EN 12149 for formaldehyde, VCMs and heavy metals levels allowed for interior products, as well as achieving A+ (the highest rating) for very low VOC emissions.

EPDs (Environmental Product Declarations) are also available. These declarations can be used for green fit-out schemes such as BREEAM and SKA ratings.

Finishes

Vida

A beautiful silk effect with a pearlescent treatment that will add a touch of class to the look and feel of this finish.

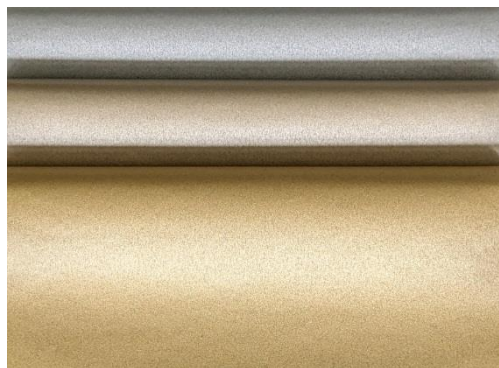

Available in four colourways; silver grey, taupe, soft gold and bronze

Huron

A distinctive mosaic texture featuring an iridescent light reflective finish. Huron will certainly add that wow factor.

Available in three colourways; warm cream, mocha brown and metallic bronze

Tai

A glittering metallic finish with a small scale, brushed metal effect texture that is incredibly versatile. Enhance the finish by adding areas of printed design, or use as a highlight by allowing the base to shine through

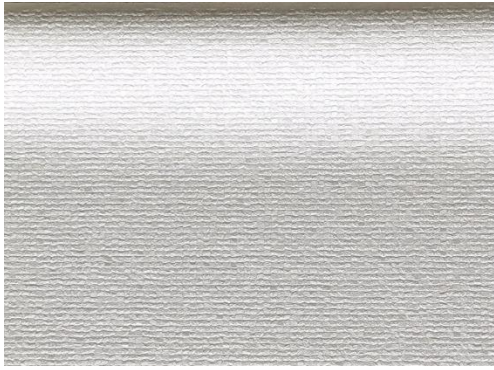

Lynx

A small-scale barrel stitch texture with a touch of lustre for the height of sophistication. A wonderful wallcovering base that will add both depth and intrigue to the finished design.

Available in five colourways; neutral white, silver grey, taupe, gold and pewter

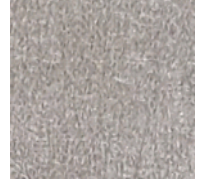

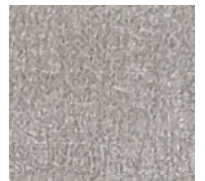

Beau

A jewel the crown. This small-scale texture with light reflective elements will add a touch of sparkle and glamour to printed design. Create added movement and interest to design by pairing with this versatile finish

Lyra

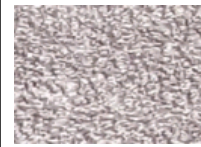

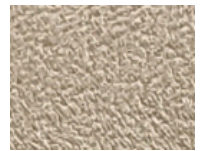

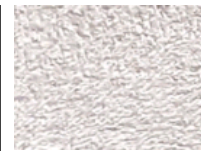

A fibrous surface structure tipped with an iridescent pearl coating for a soft reflection of light that dips across the face of the material, giving both depth and movement to the wallcovering base

Ledo

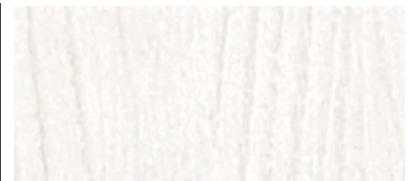

A truly luxurious faux-suede textile, that just cries out to be touched. A finish that is most definitely the star of the overall wallcovering design.

Available in five colourways; cream, biscuit, natural brown, warm taupe and charcoal grey

Batak

A wood effect base that is ready and waiting for a touch of inspiration. Use as a grounding for an industrial look or, mix it up and add a touch of decadence with an ornamental themed print
